DFR Lab — Live IoMT Failure Scenarios + Healthcare Ransomware Intelligence Tracker · lab.chaundacdallas.com

PROFESSIONAL SUMMARY

Healthcare cybersecurity strategist and “Digital First Responder” with 28+ years of frontline clinical emergency medicine experience and deep specialization in IoMT security, medical device risk, and healthcare GRC. SAM.gov registered federal contractor (CAGE: 18D81 | UEI: KV2BR8QU36J7) with WOSB certification in progress. Featured Defender in Semperis' Midnight in the War Room, premiering at Black Hat USA 2026. Known for translating clinical workflow knowledge into security strategy that protects patients, not just data. Available remote-only; open to contract, subcontract, and full-time engagements.

CORE COMPETENCIES

IoMT & Medical Device Security • vCISO Advisory • Healthcare GRC & HIPAA Compliance • HITRUST CSF • Zero Trust Architecture • Threat Modeling & Vulnerability Assessment • Incident Response & Ransomware Defense • SIEM / SOC Operations (Splunk) • Clinical AI Risk & Governance • FDA Cybersecurity Guidance • Federal Contracting (SAM.gov Active) • Clinical Risk Translation • Security Workforce Development

PROFESSIONAL EXPERIENCE

Founder & Principal Consultant | Chaunda C. Dallas LLC

2022 – Present

SAM.gov Active • CAGE: 18D81 • UEI: KV2BR8QU36J7 • WOSB Certification in Progress • Renewal: May 2027

- Provide strategic advisory across IoMT security, healthcare GRC, medical device risk, and clinical technology strategy for health system and health tech clients
- Translate complex clinical workflows and regulatory frameworks (HIPAA, FDA cybersecurity guidance) into actionable security architecture and governance programs
- Operate DFR Lab — a live IoMT failure scenario platform and Healthcare Ransomware Intelligence Tracker built from real device vulnerabilities on systems I personally depend on (ResMed AirSense 11, portable O2 concentrator)
- Support federal contractors and primes as healthcare cybersecurity SME under NAICS 541512, 541519, 541611

Virtual CISO (vCISO) Advisor | MyCyberIQ

Apr 2024 – Apr 2025

- Hired as CISO, transitioned to vCISO Advisor for an early-stage healthcare cybersecurity platform — set security strategy, human-risk and awareness programs, and compliance-informed product direction
- Advised on ransomware defense and healthcare market positioning, bringing clinical credibility and healthcare GRC expertise to a health-adjacent product

Operations Manager & Cybersecurity Strategist | HeartLove Place Ministries

Jun 2023 – Apr 2024

- Detected and shut down a website spoofing campaign targeting nonprofit donations — preventing approximately \$30K in financial fraud
- Implemented dark web monitoring and brand impersonation threat hunting protocols
- Deployed SIEM monitoring and alerting to improve organizational threat visibility
- Developed incident response procedures and security awareness training for staff and volunteers

Customer Success Engineer — Clinical AI & EHR (Contract) | DeepScribe

Dec 2021 – Mar 2022

- Led onboarding and live training for clinicians adopting ambient AI documentation tools across multi-site practices
- Customized clinical workflows within athenahealth, Kareo, and eClinicalWorks to accelerate provider adoption
- Served as clinical-technical liaison between physicians, engineering, and digital product teams

Graduate Research Assistant — Medical IoT Security | Kennesaw State University · CCSE

2020

- Architected security and privacy frameworks for WiFi-based fall detection and remote patient monitoring systems
- Conducted threat modeling for IoMT devices evaluating risks to patient safety and data integrity
- Translated HIPAA requirements into technical architecture, embedding Privacy-by-Design into emerging medical sensor technologies

Lead Clinical Coordinator | Azura Vascular Care

Apr 2016 – Oct 2021

- Directed clinical operations across Interventional Radiology and Surgical suites managing high-velocity workflows where documentation integrity directly impacts patient outcomes
- Orchestrated HIPAA-aligned data exchange between surgeons, payers, and referral networks across regulated vascular care environments
- Led secure EHR documentation and staffing workflows, maintaining PHI integrity under continuous operational pressure

Emergency Department Operations Lead | Piedmont Healthcare

1999 – 2016

- 17 years as Lead ER Technician and Clinical Preceptor across two Level II Trauma EDs — Eastside Medical Center, now Piedmont Eastside (1999–2013), then Piedmont Atlanta (2013–2016) — trusted with high autonomy across high-volume emergency operations
- Selected as ER Epic Super User during Piedmont Atlanta's Epic implementation (final ~2 years) — supported 200+ clinicians through go-live, upgrades, downtime readiness, and troubleshooting
- Developed and coordinated manual workflow protocols during EHR outages to maintain uninterrupted patient care continuity
- Observed firsthand how clinical workflow pressure, fatigue, and system limitations create the cybersecurity vulnerabilities that now define my consulting practice

Technical Mentor — 3 Consecutive Cohorts | Women in CyberSecurity (WiCyS)

Jun 2024 – Present

- Selected three consecutive years and awarded annual mentorship grants to guide 200+ women through cybersecurity career transitions
- Supported healthcare cybersecurity specialization pathways, leveraging clinical background to open doors others couldn't

Technology Education Instructor (Contract) | People for Change Coalition

2022 & 2025

- Summer faculty for two cohorts (2022 and 2025), teaching technology to underserved students in grades 6–9
- Built healthcare technology curriculum incorporating medical device case studies and emerging health tech careers

SELECTED IMPACT

- Built DFR Lab: 9 live IoMT failure scenarios + Healthcare Ransomware Intelligence Tracker, mapped to NIST, HIPAA, FDA, and IEC frameworks
- Prevented \$30K+ in financial fraud through active detection and shutdown of a live website spoofing campaign
- Mentored 200+ cybersecurity learners through structured technical guidance and career development support
- Led EHR adoption for 200+ clinicians during enterprise Epic implementation in a high-acuity trauma environment

INDUSTRY RECOGNITION

- Featured Defender — Midnight in the War Room | Semperis Documentary | Premiering Black Hat USA 2026
- Panelist — WiCyS 2026 Virtual Conference: Behind the Scenes of Midnight in the War Room
- Panelist — Women in Security and Privacy: Inside Hacker Summer Camp
- Podcast Guest — Halcyon Last Month in Security (Episode 006)
- Lead Badge Liaison — DEF CON 33 & Black Hat USA

EDUCATION & CERTIFICATIONS

M.S., Information Technology (Cybersecurity Concentration) — Kennesaw State University

Graduate Certificate, Healthcare Technology — Kennesaw State University

CompTIA Security+ | Google Cybersecurity Professional Certificate | Cybrary SOC Analyst

PhD in Healthcare Cybersecurity — Capitol Technology University (Accepted · Strategically Deferred)

HCISPP (in progress) | AWS Cloud Practitioner (in progress) | ISA/IEC 62443 Foundational
